Sold Tags

When an item is spoken for, a "Sold Tag" makes it official. These brightly colored tags are **a simple, professional way to mark merchandise as sold**, keeping your floor staff, warehouse team, and customers on the same page and preventing mix-ups before delivery of pickup. Each tag includes a pre-printed area for entering sale and delivery info, making them as functional as they are visible. **A reinforced tear-resistant eyelet means they hold up to repeated handling without tearing away from the product**, especially if paired with our string or wire.
