

Reverse Tuck Folding Cartons

Reverse tuck folding cartons are a versatile packaging choice, ideal for lightweight retail, promotional, or shipping uses. Featuring tuck flaps on opposite ends, one folding from the front and one folding from the back, these cartons **provide secure closure that's easy to assemble**. Made from sturdy cardboard, they offer a clean, professional appearance, suitable for cosmetics, small electronics, hardware, and gift items. The reverse tuck folding carton's efficient design **ships and stores flat to save space** and are sold in case quantities. Click on our offerings below to learn more.
