Corrugated Sheets

Corrugated cardboard sheets are a versatile **solution to protecting, layering, or separating products** during storage and shipping. Corrugated sheets can be used as pallet liners to stabilize loads or a layer between stacked items to prevent shifting. All dimensions are measured edge to edge and ship flat in bundle quantities. The minimum order is only 1 bundle per size. To reduce freight costs, we combine bundles whenever possible. If you would like a quote on 1000 pcs or more, simply fill out our contact form.
