

Steel Strapping

When a load is too heavy, too large, or too valuable to secure with stretch film or tape, steel strapping is the standard. Used across manufacturing, distribution, and heavy freight operations, **steel strapping provides tensile strength and rigidity needed to unitize pallets, bundle lumber and pipe, secure machinery, and reinforce crates for long-haul or international shipments.** Unlike poly or cord strapping, steel holds its tension under heavy loads, making it the go-to choice for dense, rigid, or sharp-edged products.

1/2" .023 Steel Strapping

Qty	1	2-5	6+
Price	\$250.00	\$230.00	\$215.00

SKU: STEELSTR1/2.023
Min Order Qty: 1
Quantity Per Coil:
Ships from: NJ

5/8" .023 Steel Strapping

Qty	1	2-5	6+
Price	\$250.00	\$230.00	\$215.00

SKU: STEELSTR5/8.023
Min Order Qty: 1
Quantity Per Coil:
Ships from: NJ

3/4" .023 Steel Strapping

Qty	1	2-5	6+
Price	\$250.00	\$230.00	\$215.00

SKU: STEELSTR3/4.023
Min Order Qty: 1
Quantity Per Coil:
Ships from: NJ
